01 / ON THE PITCH

Breaking Lines / session diagram

COACH WITH PURPOSE.

Coach mentoring

Bring a session or a coaching challenge. Review one session plan, discuss your coaching decisions and leave with agreed actions.

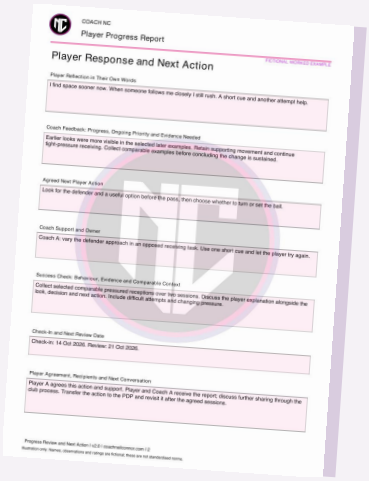

Session design & methodology

Connect playing principles with practice design, coach language and the way you review learning.

02 / DEVELOPMENT THAT CONNECTS

SEE THE PROGRESS. PLAN WHAT'S NEXT.

Practical systems. Clear priorities. Useful conversations.

COACH NC

Player Progress Report

Player Response and Next Action

FICTIONAL WORKED EXAMPLE

Player Reflection in Their Own Words

I find space sooner now. When someone follows me closely I still rush. A short cue and another attempt help.

Coach Feedback: Progress, Ongoing Priority and Evidence Needed

Earlier looks were more visible in the selected later examples. Retain supporting movement and continue light-pressure receiving. Collect comparable examples before concluding the change is sustained.

Agreed Next Player Action

Look for the defender and a useful option before the pass, then choose whether to turn or set the ball.

Coach Support and Owner

Coach A: vary the defender approach in an opposed receiving task. Use one short cue and let the player try again.

Success Check: Behaviour, Evidence and Comparable Context

Collect selected comparable pressured receptions over two sessions. Describe the player explanation alongside the look, decision and next action. Include difficult attempts and changing pressure.

Check-in and Next Review Date

Check-in: 14 Oct 2026. Review: 21 Oct 2026.

Player Agreement, Recipients and Next Conversation

Player A agrees this action and support. Player and Coach A receive the report, discuss further sharing through the club process. Transfer the action to the PDP and revisit it after the agreed sessions.
